What Is Social Performance?

Social performance is defined as “the effective **translation** of an institution’s mission into practice in line with accepted social values.”

Asian CU Development Educators Grand Reunion
 March 9-11, 2013, Bangkok, Thailand

In other words, social performance is about making an organization's social mission a reality, whatever that mission is.

Social Performance Management

1. How many members have we improved lives? Do we have measurement?
2. Are our products and services build wealth for members and they are solutions to members financial problems?
3. Are our policies promote financial inclusion?
4. Are our Board of Directors clear about our mission and it serves as an anchor in every decision they take?
5. Are our staff has internalize the true meaning of their job as cooperative worker or just the traditional 8 hour paid job?
